BAC CAST ALUMINIUM ENCLOSURES

The applications for standard cast aluminium enclosures hold no bounds; electrical, electronic or pneumatic are securely housed by this exceptionally resilient material.

Features:

- Aluminium die cast,
- IP 66 rated to EN 60 529/10.91, complies with NEMA 4
- Colour light grey RAL 7001,
- Stove enamel, smooth finish
- Temperature Resistance (Long Term -40 to +120 °C)
- Good Chemical Resistance to Alcohol, Petrol, Diesel, Mineral Oils and weak acid / alkaline solutions.
- Excellent impact strength
- Oil and petrol resistant neoprene cord seal
- Lid secured with 4 captive rustproof screws
- Galvanised steel conduit support tube – if required.

There are 18 sizes in the range:

Width (mm)	Height (mm)	Depth (mm)
50	45	30
58	64	36
98	64	36
150	64	36
75	80	57
125	80	57
175	80	57
250	80	57
122	120	80

Width (mm)	Height (mm)	Depth (mm)
220	120	90
360	122	80
160	160	90
260	160	90
360	160	90
200	230	110
280	230	110
330	230	110
330	230	180
